**Enable Consulting and Binary Tree Announce Partnership to Deliver
Comprehensive Enterprise Messaging Migration
Solutions to Clients**

Industry Leaders in Business and IT Consulting and Messaging Migration Work Together to Minimize the Business Risk and Impact Associated with Small and Large-Scale Changes to Corporate Messaging and Collaboration Environments for Clients

April 17, 2008 – Fort Washington, PA and Newark, NJ – Enable Consulting, LLC (www.enableconsulting.com), a leading Business and Information Technology firm who delivers complete solutions that blend business, sales, marketing and operations management with the appropriate technology, and Binary Tree (www.binarytree.com), an ISV and professional consultancy focused on providing industry leading solutions that analyze, integrate, migrate and extend enterprise messaging and collaboration systems, today announced a partnership that delivers comprehensive enterprise messaging migrations solutions to the marketplace.

Enable Consulting and Binary Tree have successfully partnered on mission critical messaging migrations for leading companies like Liberty Property Trust. “Enable and Binary Tree helped us migrate users from Lotus Notes to Microsoft Exchange with minimal disruption, our end users were very pleased,” said Chris Herrick, Director of IS for Liberty Property Trust. “In addition, we were able to migrate on our timeline since users moved in groups and coexistence was achieved during the migration period. We were very happy with the outcome of the project.”

“Binary Tree and Enable Consulting together allow our customers to more fully capitalize on a smooth, seamless messaging migration,” said Joseph Cellucci, CEO and Managing Partner for Enable Consulting, LLC. “What Enable brings to the relationship is extremely deep experience in messaging. Having spent some of the last twenty years at some of the nation’s top messaging companies, our staff has extensive experience solving some of the most difficult messaging problems for clients. Messaging migration is a hard problem. Many clients require coexistence of both platforms during the migration process and need a tool to make this happen. We are extremely impressed with the Binary Tree solution and are excited about how clients will benefit from our dual expertise.”

Binary Tree focuses on delivering solutions that analyze, integrate, migrate and extend enterprise messaging and collaboration. Adding the messaging expertise of Enable Consulting, clients can gain greater value in the investment made in their enterprise messaging migration project goals.

“Binary Tree’s CMT solution set is focused on ensuring seamless and efficient migrations for our clients. Achieving such a goal requires a great deal of expertise and experience,” said Traci Blowers, Director of Alliances and Business Development for Binary Tree. “Enable’s track record of successful implementations combined with Binary Tree’s CMT portfolio makes this a win-win for our clients. Our dedication to this relationship reflects the commitment of both companies to continue to work together to meet the needs of our customers, and redefine possibilities in the enterprise messaging landscape.”
